NASA - STEM Explorers: July 19 - 23

Come and join us as we take a voyage of discovery to the atmosphere and beyond, exploring planets, moons, and outer space! Think and act like NASA innovators as we collaborate and design a mission patch, train like astronauts and solve real-world engineering problems. We will investigate unique flying machines and build copters, boomerangs & mini hovercrafts. MAD Science is the only organization licensed by NASA!!

Mad Machines & Rocking Rock: July 26 - 30

Spring into a medley of scientific subjects and learn about the Earth and its animal inhabitants, simple machines, rocketry, flight, and chemical reactions. There is something for everyone!! Build and race a car, construct a robot, create animal tracks, build a bug house, and grow your very own crystal garden to take home. There is so much in store; it's simply sensational!!!

Journey to Outer Space: August 2 - 6

Take a voyage of discovery into the atmosphere and beyond as we explore planets, moons, and other space phenomena! Build your own Mad Science rocket and participate in a real NASA style launch. Create a kitchen comet and bring home lots of cool NASA stuff!! Don't get let out, join us and shoot for the stars!!

Mad Machines & Junior Engineers: August 9 -13

Whether you enjoy building or destroying structures, you will love this camp! Work with pulleys, wedges, screws, and levers to build your own catapults and play robot soccer! Exercise your ability to work with others while constructing a geodesic dome big enough for all campers to fit inside! Let the engineering excitement begin!!
