

## Mission

The Hopewell Valley Municipal Alliance, also known as Health Communities Healthy Youth, facilitates coordination and communication between community groups, municipal governments, schools, businesses and faith communities as we work together to address substance abuse and promote healthy communities and healthy youth in Hopewell Valley.

## About Us

In 1991, the Governor's Council on Alcoholism and Drug Abuse ruled that each town and city should organize Municipal Alliances throughout New Jersey to provide substance abuse education and prevention programs.

In 1996, the Healthy Communities Healthy Youth Initiative became a key project of the Alliance focusing on positive youth development to address at-risk behavior in the community and to build assets – the positive building blocks young people need to become healthy, principled and caring adults.

## What We Do

The Hopewell Valley Municipal Alliance is part of a statewide program of municipal alliances that are aimed at the prevention of alcoholism and drug abuse. We do this by supporting activities and programs in Hopewell Valley geared toward keeping our youth healthy and safe.

Funding for the Alliance is made possible through a grant from the Governor's Council on Alcoholism and Drug Abuse. The grant is awarded by the Mercer County Department of Human Services for our programs and activities. We also receive funding from the three municipalities and community supporters.

Our Executive Committee is a partnership of the local municipal governments, police departments, business community leaders, clergy, recreation community, mental health professionals, senior citizens, school administration, parents and students who are working to make Hopewell Valley healthier and safer for our youth.

Our meetings are currently being held on the 4th Thursday of September, October, January, March and May at 7:45-8:45 AM. Please call for our meeting location. We encourage your participation and involvement.
