REGULATORY COMMISSION**

March 29, 2016

**Ms. Kimberly D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, D.C. 20426**

Dear Secretary Bose:

Please accept this correspondence as my support for the PennEast Pipeline which is awaiting approval of its formal application. This pipeline would have many benefits for New Jersey and the citizens I represent.

Specifically, studies have shown that the PennEast Pipeline would save New Jersey residents millions of dollars in gas and electric costs and will create thousands of jobs. In addition, this project will have significant economic benefits and will promote cleaner air and energy independence.

Moreover, the PennEast Pipeline is supported by leading business and labor organizations in New Jersey.

In light of the many benefits provided by this project, I urge you to approve the application to allow the construction of the PennEast Pipeline to move forward.

Thank you for your attention to this correspondence and please feel free to contact me should you have any questions regarding this matter.

Sincerely,

**David P. Rible
Assemblyman, 30th District**
