CARBON COUNTY	cccommis@ptd.net

Basis for Intervening:

As representatives of persons residing in the areas where the pipeline is tentatively slated to be built, the commissioners have several concerns, primarily with regard to safety. There has been concerns expressed about the pipe thickness and depth, as well as questions about maintenance of the lines over periods of time. Other concerns include whose responsibility it may be (the pipeline co?) with regard to making sure our emergency responders are trained and prepared to handle catastrophic incidents of a pipeline, similar to what happened in Lehigh County several years ago when a pipeline exploded. As a registered intervenor, we respectfully requests the right to present these and other concerns at the proper time.
