Basis for Intervening:

Pursuant to Rules 212 and 214 of the Federal Energy Regulatory Commission's ("Commission") Rules of Practice and Procedure, 18 C.F.R. § 385.212 and 385.214 (2007), Durham CCAP files this motion to intervene in this proceeding.

In support of our motion to intervene, Durham CCAP represents residents of Durham Township who live in close proximity to the proposed pipeline and actively oppose its intrusion in our community.

Our concerns about this project range from its threat to our water, our health, our preserved farmlands, our wildlife, our historical treasures, our property values and our PROPERTY RIGHTS. The danger of catastrophic damage posed by such an extreme pipeline and the pollution that it will constantly generate are not justified by any need or want from our community, or for the "greater good".

Durham CCAP respectfully requests that the Commission grant this Motion to Intervene as a party with full rights to participate in all further proceedings.

Respectfully submitted,

Ann Marshall on behalf of Durham -CCAP
