Township of Ewing, New Jersey	meca@stevenslee.com

Basis for Intervening:

The Township of Ewing, New Jersey, hereby intervenes as of right as an interested party on behalf of the citizens of Ewing Township who are, or may be affected by the proposed pipeline either directly in the event of co-location or indirectly by virtue of Ewing's proximity to the proposed new pipeline location which falls within the adjacent Township of Hopewell. It is expected that environmental, safety and other quality of life issues caused by the proposed pipeline will negatively impact citizens of Ewing. Further, as residents and taxpayers within the County of Mercer and State of New Jersey, they have contributed to the funds expended to preserve and create open space and preservation lands by the County and State, and will thereby be impacted by the pipeline's negative impact on such open space and preserved lands, including their use and enjoyment of same.
