Basis for Intervening:

I am the EMERGENCY MANAGEMENT COORDINATOR for KINGWOOD TOWNSHIP, HUNTERDON COUNTY. I have grave concerns about the safety of this proposed compressed gas pipe line and the crossing of PennEast pipe line and Buck Eye Petroleum pipe lines at Spring Hill Road. I have a concern there is a 10% chance of an accident with PennEast and Buck Eye Pipe lines. I need to know the response time and the limitations of any gas or petroleum products leakage. What fire prevention methods and containment of the burning product and raw product. What type of alarm system will be in place, and how Penn East will be hardening its pipe line for prevention of terrorist attacks and sabotage.

Thank you,
IRVING J MACCONNELL JR
