Basis for Intervening:

The Lambertville-New Hope Ambulance and Rescue Squad is faced with the concern of emergency response times for patient calls in the areas affected by the proposed pipeline route, specifically Delaware Township, NJ and West Amwell Twp, NJ. Pipeline construction poses the potential to disrupt a prompt response for a 9-1-1 call if roads are blocked or otherwise inaccessible, even for a brief time. The safety of our patients and our crews is our number one priority. We need to be aware of possible delays due to construction or other aspects related to this pipeline, should it be built. For these reasons, we wish to declare our organization as an intervenor.
