Basis for Intervening:

I wish to declare intervener status for the Lehigh Valley Friends Meeting (commonly called Quakers). Many Friends live in Bethlehem, Pennsylvania and depend on the quality of the water supplied to them from the watershed of the Wild Creek reservoirs that will be crossed by the PennEast pipeline, if it is built. On a global scale each of our nearly 200 members and attenders is concerned about the opportunity cost of spending so much money and still only be burning fossil fuel for heat and electricity. If that much was spent on developing renewable energy sources such as wind or solar the local environment could be spared the trauma of constructing and operating 114 mile long natural gas pipeline. There are many reasons not to build the PennEast pipeline, and in the months ahead we will offer them for your consideration. Thank You.
