RE: PennEast Pipeline Docket No. PF15-1-000

Dear Mr. Godlasky and Calderon:

Several of our residents have received the notices regarding the location change for the proposed PennEast Pipeline. Most of these residents have questions and concerns regarding the pipeline location, potential environmental impacts, and how this area was chosen as a potential area for the pipeline. These residents have been attending our Board of Supervisor meetings looking for answers, particularly because they have not had the opportunity to voice their concerns at a public hearing since the change in location just came about in the past three weeks.

The Board of Supervisors feel that these residents should have the opportunity to voice their concerns and ask their questions in a public hearing in the same manner as the other individuals whose properties are being affected. Please schedule a public meeting for our residents to attend as soon as possible. We will make our meeting room available for this meeting. Please contact me with potential dates for this meeting.

Very truly yours,

Alice A. Rehrig
