Basis for Intervening:

I am requesting to serve as an intervener on behalf of the Rosemont Water Company (RWC) given our public water supply system is in close proximity to the proposed PennEast Pipeline project. We are seriously concerned relative to the Draft Environmental Impact Statement (DEIS) which apparently fails to address comments submitted by the RWC during the scoping phase of this application and other issues we believe need to be addressed by FERC.

The RWC is located in Delaware Township, New Jersey and operates its wells and pumping operation on County Rt.604, west of PennEast's mile marker 92.5.

Comments will be submitted under separate cover.
Thank you.

Robert M. Wolfertz on behalf of the Board of Directors of the RWC
Current Board Member, former President and Licensed Operator
