Basis for Intervening:

SuperNatural Salon and Spa is requesting intervenor status on docket # CP15-558, Penneast Pipeline. This proposed project would have a direct negative impact on the local businesses, customers, employees and all those living and working within the community.

After extensive research it has been proven that this project is of no public necessity and would be an extreme devastation to this region.

It is in our deepest expectation that FERC will up hold their duty to take the NO Action Alternative and dismiss this project without further waste of time and resources.
