RE: 2022/2023 Performance Guarantee Requirements
Trap Rock Industries, Inc. – Moores Station Quarry

On March 1, 2022 I performed an inspection of the Moores Station Quarry and its general operations. In preparation for the inspection, Township offices were contacted and research of records was conducted. No complaints were received during the past year and my inspection revealed the quarry is generally being maintained in accordance with the ordinance requirements. No active quarrying is occurring. On-site operations consist of the demobilization of equipment and preparation of the site for the scheduled transfer of ownership to Mercer County. Based upon my inspection I recommend the following Performance Guarantee estimate for the 2022/2023 Quarry License renewal:

1. Maintenance of water flows at stockpile locations; dust and tracking control along access driveway and Route 29; fencing repairs and replacements; site grading to maintain diversion to the approved on-site sediment basin and treatment device; placement of seed and plantings on slopes and berms; soil erosion and sediment control measures; cover plantings on spoil areas; general maintenance in accordance with the Ordinance; and providing updated surveys**\$28,000.00**
2. Maintenance of stabilization of overburden stockpile embankments; maintenance of cut-off trenches to intercept runoff; additional embankment plantings; and annual overseeding of embankment..... **\$ 6,500.00**

TOTAL PERFORMANCE GUARANTEE FOR ANNUAL LICENSE RENEWAL \$34,500.00
